

COMSATS University Islamabad (Sahiwal Campus)

Assignment 1– Fall 2023

Course Title:	Introduction to Computing-Class	Course Code:	CSC101	Credit Hours:	1
Course Instructor:	Mr. Khurram Nissar	Program Name:	BSCS		
Due Date:	10-Oct-2023	Maximum Marks:	10		

Important Instructions / Guidelines:

1. If the assignment requires research, gather relevant materials and sources. Ensure you use reliable and credible sources for your research.
2. Create an outline for your assignment. This will help you organize your thoughts and structure your work logically.
3. Begin writing your assignment following the outline. Be sure to address all the requirements mentioned in the assignment prompt. Use clear and concise language.
4. If you use any external sources, make sure to properly cite them using the appropriate citation style (e.g., APA, MLA, and Chicago).
5. After completing your assignment, proofread it carefully for grammar, spelling, and punctuation errors. Check for clarity and coherence in your writing. Make necessary revisions and edits.
6. Format your assignment according to the instructions provided. This may include specific font size, margins, spacing, and file format (If hand written insure your writing must be readable).
7. Ensure that your work is entirely your own and that you have not copied from other sources without proper citation. Use plagiarism-checking tools if available.
8. Submit your assignment by the specified due date and time. Late submissions will not be considered.
9. Before submitting your assignment, make sure to save a backup copy in case of any technical issues.
10. After completing the assignment, take a moment to reflect on what you've learned or any challenges you encountered. This can help you improve your skills for future assignments.

Question No 1.

Marks: 10

A. What are the different types of memory (volatile and non-volatile)? Briefly describe each type of memory. Create a decent heretical chart and thoroughly describe each form of memory.

Good Luck!
